

Elleebana One Shot Lash Lift Aftercare

NO: heat, steam (including cooking over steaming stovetop), saunas, water, oils, lotions, creams, shampoos, face washes, makeup remover wipes or pads on lashes for minimum of 24 hours.

Only approved product to put on immediately after a lift that will not cause your Elleebana Lash Lift to fall is the Elleevate Mascara.

We also advise that because the clients' lashes are still malleable (shape shifting) a side sleeper or face sleeper can notice one or both eyes can raise or drop, leaving the lashes misshaped. Sleeping on the back is best. Avoid face washes that are mainly oil as this can also cause lashes to drop prematurely. If you apply the Elleevate mascara make sure that you remove it with cold water, within the 24-hour period.

ENJOY YOUR ELLEEBANA LASH LIFT FOR THE NEXT 2-3 MONTHS!

Elleebana Semi-Permanent Mascara After Care

Day 1: For the first two hours, avoid any water contact on the lashes. No steam on the face or near the eyes.

Day 2: Avoid hot water or steam on the face and near the eyes.

Day 3 forward: Refrain from all attempts to rub the eyes or lashes. Do NOT use oil-based products on or near the eyes, i.e., moisturizers, eye serums, lash conditioners, make-up removers, etc. If you are uncertain if your products contain oils, review online for ingredients or contact Skinology if purchased there.

DO NOT ATTEMPT TO PICK OFF SPM.

Let Katie safely and gently remove the coating before your next application is applied.
